

Jergens KWIK-LOK®

MARINE PINS

Jergens Kwik-Lok® Release Pins for Marine Applications

The most corrosive resistant pin for the most harsh, marine environments. Available in Ring Handle, Recessed Button Handle and Heavy Duty Detent styles. Pin styles that are ideal for applications that require a tight clearance, safe actuation and high pull out force.

- The Ring-Handle Marine Pin is designed for applications which require a small clearance area around the pin.
- The Recessed Button Handle Marine Pin design helps prevent accidental actuation of the pin.
- The Heavy Duty Detent Pin provides a high pull out force with its heavy duty spring and locking balls.
- The Marine Pin's Stainless Steel handles withstand tough environmental conditions.

Component Part	Material
Handle	300 Series Stainless Steel
Button	300 Series Stainless Steel
Body	Recessed & Ring Handle - 17-4 PH Stainless Steel
	Heavy Duty Detent - 300 Series Stainless Steel
Spindle	17-4 PH Stainless Steel
Spring	300 Series Stainless Steel
Balls	300 Series Stainless Steel

Pin Dia (in)	Double Shear Resistance Minimum (lbs)	
	Recessed & Ring Handle	Heavy Duty Detent
3/16	5,150	2,530
1/4	9,200	4,500
5/16	14,400	7,100
3/8	20,700	10,300
1/2	36,900	18,400
5/8	57,800	28,900
3/4	83,200	41,800

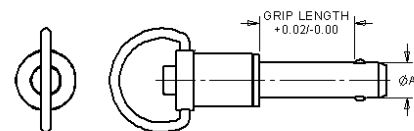

Lanyards available upon request.

All Jergens Kwik-lok® pins are manufactured in the USA and are MS, NAS, DFARS, QLSM and RoHS compliant. ISO 9001:2008
